Art Unit: 2854

This application contains claims directed to the following patentably distinct species of the claimed invention:

claim 1 species displays copies of basic designs on a medium and allows a customer to select a basic design from the display along with selection of color scheme and personal features to be added to the selected basic design; and

claim 10 species displays copies of basic designs of wallpaper comprising contiguous decorated panels with designs of non-repeating patterns and selectable subdesigns comprising less than all the contiguous panels and allows a customer to select a subdesign of a basic design along with personal design features and selection of color scheme to be added to the selected subdesign.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2854

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ren Yan whose telephone number is (703) 308-0978. The examiner can normally be reached on weekdays from 8:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Hilten, can be reached on (703) 308-0719. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-5841.
